

NET3012 – IP Architectures and Solutions

Lab 2 Pre-lab consists of a online quiz on BrightSpace

It contains questions on OSPF, some of which refer to diagrams in the NRS-II textbook. You'll find 8 pages of this textbook either on the following pages, or in a separate file available on BrightSpace.

These OSPF questions are good review for material from NET3008, but even more importantly, they're great prep for Lab 2!
