

Pre-lab exercise for Lab 2

Instructions

To answer the pre-lab questions, you'll need to have a copy of two documents:

1. the actual Lab 2 exercise
2. the "Intro To NetLab" document.

You can get to both via BrightSpace or just head directly to the course web page.

Read them both, and then head on over to BrightSpace to answer the pre-lab quiz. There's 20 questions with about a dozen questions from the Lab 2 exercise itself; the rest are from the Intro To Netlab document.

Good luck; hopefully you learn a few tricks to make life easier with Cisco devices.
